PERSONAL DETAILS

- Date of Birth: 02 November 2005
- Nationality: Indian
- Languages Known: English, Hindi, Bengali
- Current Location: Kolkata, West Bengal, India

PROFESSIONAL SUMMARY

Creative and detail-oriented Full Stack & Flutter Developer with hands-on experience building scalable web, desktop, and mobile applications across healthcare, pharmacy, automotive, media, and e-commerce domains. Skilled in Flutter, Dart, Python, Django, Riverpod, GetX, and modern software architecture practices.

Currently pursuing a Bachelor of Computer Applications (BCA) at Future Institute of Engineering and Management while working as a Full Stack Developer Intern at Naiyo24 Pvt. Ltd., contributing to enterprise-grade management systems and cross-platform applications.

Passionate about building responsive, user-focused, and high-performance software solutions with clean architecture, modern UI/UX, and scalable development practices. Strong interest in Artificial Intelligence, workflow automation, and next-generation application development.

TECHNICAL SKILLS

Programming Languages

- Dart
- Python
- Java

- C
- JavaScript

Frameworks & Technologies

- Flutter
- Django
- Riverpod
- GetX
- GoRouter
- SharedPreferences
- GetStorage

Web Technologies

- HTML5
- CSS3
- JavaScript

Tools & Platforms

- Git & GitHub
- VS Code
- Android Studio
- Microsoft Office (Word, Excel, PowerPoint)
- File Picker
- Table Calendar

Core Concepts

- Data Structures & Algorithms
- Object-Oriented Programming
- REST API Integration
- State Management
- Responsive UI Design
- RBAC
- MVC/MVVM Architecture
- Clean Architecture
- Cross-Platform Development

Creative & Design Tools

- Canva Poster Design
- Social Media Graphics
- Video Editing & Reels
- Digital Content Creation
- Visual Branding

Professional Skills

- Problem Solving
- Team Collaboration

- Rapid Learning
- Communication
- Analytical Thinking
- UI/UX Understanding
- Software Architecture Planning

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern – Naiyo24 Pvt. Ltd.

October 2025 – Present

Working as a Flutter and Full Stack Development Intern, contributing to enterprise-grade applications across healthcare management, pharmacy systems, dealership administration, workflow automation, and utility software domains.

Key Responsibilities

- Developed scalable cross-platform applications using Flutter for Web, Desktop, Android, and iOS.
- Designed responsive and modern UI/UX systems for enterprise workflows.
- Implemented advanced state management using Riverpod and GetX.
- Built reusable widgets and modular architecture.
- Structured applications for seamless backend API integration.
- Optimized dashboards and data-intensive interfaces for performance.
- Collaborated with developers and stakeholders to deliver production-ready software solutions.

Major Projects Delivered

- Naiyo24 Hospital Management Panel
- Pharmacy Admin Management Panel
- OEMS Admin Panel
- Screen Recorder Doctor

Web Development Intern – Techno Exponent / Euphoria GenX

December 2024 – September 2025

- Completed industrial training in Python Django with AI Integration.
- Developed full-stack web applications and backend systems.
- Learned project architecture, deployment workflows, and collaborative development practices.
- Built a Blood Bank Management System for healthcare operations.

Sales Representative Assistant – Independent Role

January 2021 – January 2022

- Assisted with product presentations and customer communication.
- Explained product features, pricing, and benefits to clients.
- Supported customer engagement and sales-related activities.
- Developed communication, presentation, and interpersonal skills through direct customer interaction.

PROFESSIONAL PROJECTS

Naiyo24 Hospital Management Panel

Flutter (Dart) | Riverpod | Web & Desktop Enterprise System

Project Overview

Developed a professional enterprise-grade platform with scalable architecture and modern workflow automation systems.

Features

- Patient Registration & Management
- OPD / IPD Workflow Handling
- Emergency Triage System
- Bed & Ward Allocation
- Digital Prescription Templates
- Lab Test & Report Management
- Billing & Invoice Automation
- Role-Based Access Control (RBAC)
- Analytics Dashboard
- Notifications & Monitoring

My Contributions

- Designed and developed the frontend architecture.
- Implemented Riverpod state management.
- Built permission-based RBAC routing systems.
- Developed reusable UI components and workflow modules.
- Optimized desktop and web responsiveness.

Impact

- Reduced manual paperwork and operational delays.
- Improved patient data accessibility.
- Enhanced billing accuracy and reporting workflows.

Pharmacy Admin Management Panel

Flutter (Dart) | GetX | Web/Desktop Admin Platform

Project Overview

Developed a professional enterprise-grade platform with scalable architecture and modern workflow automation systems.

Features

- Dashboard with KPIs
- Inventory & Batch Management
- Expiry Monitoring
- Supplier Management

- Purchase Order Workflow
- Prescription Verification
- Billing & GST Reports
- Customer Credit Tracking

My Contributions

- Built modular application architecture using GetX.
- Developed procurement and inventory workflows.
- Designed analytics dashboards and reusable components.
- Structured routing and controller systems.

Impact

- Reduced medicine wastage through expiry tracking.
- Improved inventory efficiency and workflow management.

OEMS Admin Panel

Flutter (Dart) | GetX | Cross-Platform Dashboard System

Project Overview

Developed a professional enterprise-grade platform with scalable architecture and modern workflow automation systems.

Features

- Authentication & RBAC
- Vehicle Inventory Management
- CRM & Customer Tracking
- Enquiry Management
- Rental Booking Workflow
- Financial Tracking
- KPI Dashboards

My Contributions

- Designed responsive cross-platform UI systems.
- Implemented GetX architecture and workflow modules.
- Developed reusable widgets and dashboards.

Impact

- Centralized dealership operations.
- Improved lead tracking and operational visibility.

Screen Recorder Doctor

Flutter | Riverpod | GoRouter

Project Overview

Developed a professional enterprise-grade platform with scalable architecture and modern workflow automation systems.

Features

- Screen Recording Controls
- Recording History
- Video Preview & Playback
- Chat with Media Sharing
- Video Call UI
- Dark / Light Theme Support

My Contributions

- Built responsive UI architecture.
- Implemented Riverpod state management.
- Designed recording and communication workflows.
- Added reusable components and animations.

Impact

- Improved team collaboration and media-sharing workflows.

ACADEMIC PROJECT

Blood Bank Management System

Python Django | HTML | CSS | JavaScript

Developed a web-based healthcare platform to connect blood donors, hospitals, and patients through centralized blood inventory and request management.

- Donor Registration
- Blood Inventory Management
- Search by Blood Group
- Request Management
- Admin Dashboard

Impact

- Reduced manual management efforts.
- Improved emergency response efficiency.

PERSONAL PROJECTS

INEWS – Intelligent AI News Reader

Flutter | Dart | GetX | GetStorage

Project Overview

Developed a modern and scalable application with responsive UI systems and optimized architecture.

Key Features

- Personalized News Feed
- AI Article Summaries
- Text-to-Speech Support

- Bookmarking System
- Comment & Like Features
- Dark / Light Theme

Impact

- Improved accessibility and reading efficiency.
- Demonstrated scalable Flutter architecture.

Premium E-Commerce Mobile Application

Flutter | Dart | GetX | SharedPreferences

Project Overview

Developed a modern and scalable application with responsive UI systems and optimized architecture.

Key Features

- Authentication System
- Product Discovery & Search
- Wishlist & Cart Management
- Checkout Workflow
- Order Tracking
- Persistent Local Storage

Impact

- Simulated real-world commerce workflows.
- Demonstrated scalable mobile application development.

U2Me – Social Dating App Prototype

Flutter | Dart | GetX

Project Overview

Developed a modern and scalable application with responsive UI systems and optimized architecture.

Key Features

- Swipe-Based Matching
- Profile Management
- Real-Time Chat UI
- Animated Interactions
- Responsive Social UI

Impact

- Showcased modern social networking UX patterns.
- Demonstrated animation-heavy Flutter development.

Advanced Calculator Application

Flutter | Dart | GetX

Project Overview

Developed a modern and scalable application with responsive UI systems and optimized architecture.

Key Features

- Standard & Scientific Modes
- Expression Parsing
- Calculation History
- Responsive UI
- Theme Support

Impact

- Demonstrated logic-heavy application architecture.
- Strengthened mathematical problem-solving implementation skills.

EDUCATION

- Bachelor of Computer Applications (BCA) – Future Institute of Engineering and Management (Expected Graduation: 2027)
- Higher Secondary (Class XII – Commerce) – Hirendra Leela Patranavis School | 60.25% | 2023
- Secondary (Class X) – Hirendra Leela Patranavis School | 65.90% | 2021

CERTIFICATIONS & ACHIEVEMENTS

Professional Certifications

- Full Stack Development Internship – Naiyo24 Pvt. Ltd.
- Offer Letter – Full Stack Intern (Training), Naiyo24 Pvt. Ltd.
- Python Django + AI Integration Industrial Training – Euphoria GenX / Techno Exponent
- Microsoft Office Certification (Word, Excel, PowerPoint)

Academic Achievements & Participation

- Smart India Hackathon (SIH) 2025 – Internal Participant
- Swami Vivekananda Scholarship – Qualified
- Gurudaxina'25 – Certificate of Participation
- Impulz'25 – Certificate of Participation
- Samarpan'26 – Certificate of Participation
- Saampan 2025 – Wall Magazine Participation

ADDITIONAL INFORMATION

Content Creation

- Create travel-related content for social media platforms.
- Create lifestyle-focused digital content.
- Create technology and application development related content.
- Engage audiences through creative visual storytelling.

Areas of Interest

- Artificial Intelligence
- App Development
- UI/UX Design
- Football
- Badminton

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
